

Manufacturer Company Information

Trade Name: **Roll-A-Ramp®**
Date Incorporated: 1999
Status: **Service-Disabled Veteran-Owned Small Business**

Scope of Business

Engineering, manufacture and distribution of high quality portable aluminum ramp products for the handicap accessibility and commercial/industrial markets worldwide. Using the age old concept of a ramp, DT&J has innovated a design that incorporates both the strength of ramp technology with the flexibility of movement not seen before in any product. New products are developed through the need communicated to us by customers actually using the product. A dynamic company with a willingness to change in order to quickly adapt to the global marketplace.

Mission

Freedom. To provide freedom of movement and mobility to allow customers to regain their freedom, and to provide solutions for non-medical markets wherever ramping is needed. *Strength. Flexibility. Together.*

Market Reach

Roll-A-Ramp® sells product through several channels, some of which are listed here.

- 1) **National US Dealer Network - Roll-A-Ramp®** currently has in excess of 500 Durable Medical Equipment & non-medical market dealers nationwide selling the product direct to the consumer/commercial markets.
