

Ramp Comparison

Compare the differences yourself!

Tired of seeing all the folding ramps that seem hard to use and take up too much space?

Introducing the world's only roll-up expandable ramp. An innovation that has received many awards!

Why settle for other ramps that have limitations on length, weight capacity and warranty?

Roll-A-Ramp® is the only ramp that rolls up. It can be expanded and has the best warranty available.

10-YEAR UNCONDITIONAL WARRANTY.

Compare features and warranties for yourself. You will find Roll-A-Ramp is the choice that is able to meet your needs. *You get what you need and not what's available.*

Unique Roll-A-Ramp® Feature vs. other ramps – other ramps longer than 10 feet are not portable anymore. They are meant to be stationary. Not so with Roll-A-Ramp. Even if you have a longer modular ramp with a platform and handrails the Roll-A-Ramp is still portable. Sections of any length can be quickly split off the ramp for take down or for use as a short portable ramp.

Unique only to Roll-A-Ramp.

Storing the ramp

Other Ramps

Ramps that fold take up much more space than one that rolls up. In some cases sections must be disassembled before storing. An 8' x 30" ramp is still over 4' when folded and needs at least that much space to store.

Roll-A-Ramp®

Roll-A-Ramp rolls up into a roll so it is much more efficient for storage and portability. A 8' x 30" in ramp is only 22" in diameter and 30" high. No hinges, no pins to lose just an efficient and versatile ramp.

Buying the wrong size

Other Ramps

Imagine buying a ramp and finding you needed a longer one. The answer with other ramps is you need to go through the hassle of shipping it back, ordering a new one and waiting for it to arrive. Meanwhile, you are without a ramp you needed for access.

Roll-A-Ramp®

Roll-A-Ramp is easily expandable. You can add sections to your ramp to make it length you need – at any time. If you purchase a Roll-A-Ramp and find you need a longer ramp – no problem just order the sections you need.

Returning if it doesn't fit your needs

Other Ramps

Imagine buying a ramp only to find out it is not what you thought it would be, or it does not fit your needs. There is nothing that can be done to change the ramp if needed, to make it longer. The answer in most cases is you bought it, you own it. Or, pay an expensive shipping and restocking fee to return it.

Roll-A-Ramp®

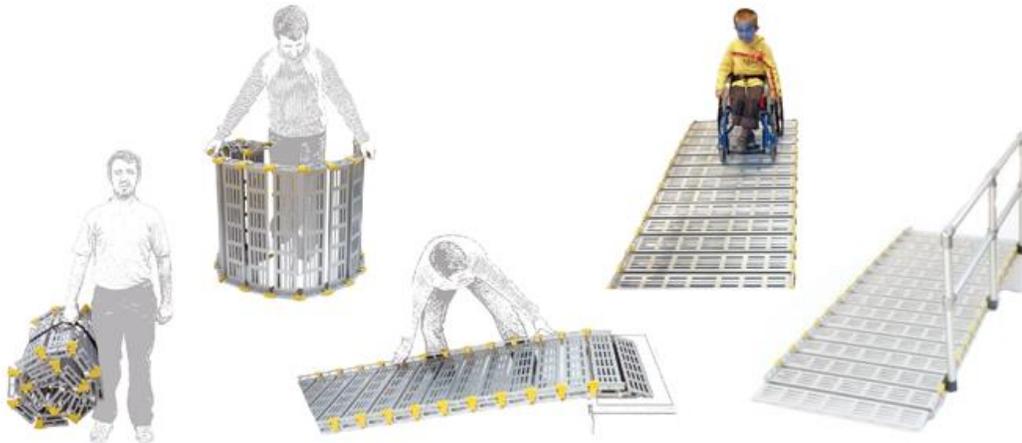

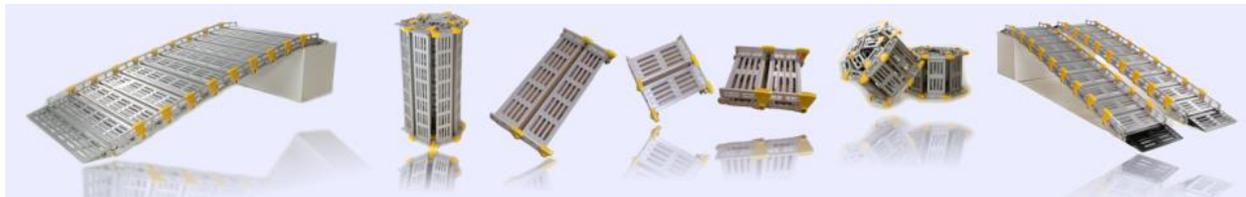

If you buy a Roll-A-Ramp and find it is not what you expected, or it does not work for you for whatever reason, you can return it. We stand behind our evaluations to make certain each customer gets the ramp solution they need. We will try to make the solution work by making changes to the ramp. If it does not work out, you simply send the ramp back and pay a small \$50.00 handling fee. Hassle-free customer service.

Limitations of other “portable” ramps

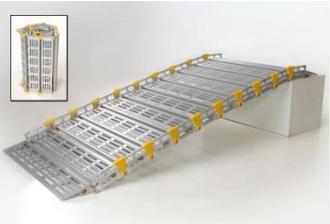

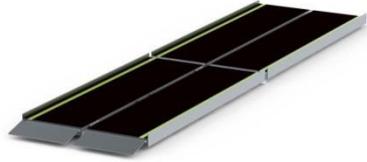

- Limited to 6 or 8 ft
- Fold with hinges
- Heavy and hard to store

Features of Roll-A-Ramp®

- Unlimited length and still portable
- Rolls up for easy storage in small space
- Lightweight: only 5 lbs/ft
- Expandable length – *this is not the case with any other ramp*
- Highest 1,000 capacity & high traction and drainage
- Unmatched 10-Year Unconditional Warranty

Portable Ramp Comparison: Comparing 8-foot ramps

	Product	Storage	Expandable	Available Lengths	Warranty	Material	Surface	Weight	Capacity
