

ROLL-A-RAMP® HD™

The strength of a 700 lb. steel ramp yet light enough to carry

Roll-A-Ramp® HD™ Features

- * 1,500 pound load capacity (8 foot length)
- * Rolls Up Like a Sleeping Bag
- * Add or change length at any time
- * 6061 Aircraft Aluminum—will not rust or corrode

What's Different?

Roll-A-Ramp® HD™ is designed for heavy duty use and is built with tread links 40% thicker than the standard Roll-A-Ramp®

A great option for flight cases, heavy equipment, and other commercial use.

8 foot = 22" rolled diameter
79 lbs. / 1,500 lb. capacity

Thicker ramp sections stand up to heavy use

Same portability and versatility as standard ramps

MULTIPLE USES:

- Moving Granite
- Hand Trucks
- Public Access
- Loading Equipment

Heavy Duty Load Bearing Approach Plate

Replaces *Standard Upper Approach Plate* (included on all ramps).

This option allows just the top 6" to sit on the upper surface versus top 12" needed with standard placement.

Provides a smoother transition on and off the ramp for use with hand dollies, wheeled carts, etc.
