Great for marching bands. All-inclusive system is completely portable for loading instruments and equipment.

- Everything needed to set up and start using.
- Prevents injury and protects valuable instruments against damage
- Roll up or stack for storage
- Add additional links (optional) to change length

*Requires no tools to set up or take down!*

The two-ramp set is quickly set up on the trailer

Ramps may be split into shorter sections for handling and storage

Each 7’ (2,14m) section weighs approximately 30 lbs. (14 kgs)

Rolled diameter 22” (56 cm)
