

FEATURES & BENEFITS

- Quickly and easily divide ramp into shorter, lighter sections.
- Easy Push button inserts and secures
- Replaces the bolts at any location where two links connect
- Easily allows length to be adapted quickly without tools

Inserting Pins:

1. Align the two ramp sections so the bolt holes line up.
2. Push button on Quick Connect Pin and insert into the hole.
3. Ensure the pin went through both ramp sections.
4. Repeat for other side in same manner.
